QUIET OPS // LEAVE-BEHIND

Agents Do the Work and People Handle the Exceptions

An exception card for one job

The job: _____

1 THE CASE

What was asked, by whom, and what has already been done.

2 THE STEP

Where the agent stopped, so nobody starts over.

3 THE REASON

Why it stopped. Tick one: missing input | no rule covers it | two rules disagree | above its limit | a check did not answer.

4 THE OPTIONS

What the agent can see, and what it recommends.

5 THE DECISION AND THE WHY

Who decided, when, and why: what did you know that the agent did not? This line goes in the log.

6 WHO OWNS THE QUEUE

Owner: _____ Cover when away: _____

Deadline for this kind of case: _____ If it passes, the case waits.

7 READ THE QUEUE BY AGE

Age of the oldest case: _____ A week: a decision nobody owns.

Weekly, for the oldest cases: missing input? who should have decided? which rule?

8 DID IT REPEAT? THEN IT LEARNS

Same kind, same decision, more than once: _____

Rule that settles it: _____ Approved by: _____

Test the card: hand a past case to a colleague who has never seen the job. If they must ask a question first, add that item.
